On Modern Marvels: Carbon, you'll find out just how versatile this simple element can be. We'll see why carbon is the key both in heavy-duty industries, like Pennsylvania's steel mills and North Dakota's coal-fired power plants, and in amazingly useful tools like the graphite pencil, the charcoal water filter, and the diamond saw blade.

What about climate change? Is there a connection between dragon legends and dinosaurs? Is evolution the bloodiest religion ever? What about cavemen? What are the 10 best evidences for a young creation? The Answers series has been a powerful tool in equipping believers to share and defend their faith. Now the newest book in this landmark series takes on hot button topics like climate change, ancient man, and many more. Too many people have walked away from their faith because they sought answers for what seemed a contradiction in Christian belief and scientific teaching. For those who desire a deeper walk and a thriving faith in the face of a growing cultural adversity, now find the answers to questions you have or others may use to genetic engineering, this powerful team of apologists is able to inspire you and those you know who may not yet believe.

A celebration of corn palaces, crop art, and butter sculpture from the late nineteenth and early twentieth centuries
